General stand lighting

Electricity: Supply voltage: 220V none socket (max. capacity 2 kW; without distribution/switching panel)

Please note: Costs for additional electricity supply to the stand (for both light and power current) from the nearest distribution point will be charged to the exhibitor and will be invoiced based on the kW registered by the exhibitor. Additional light and power current usage must be paid by the exhibitor.

Description for exhibition space without stand construction:

Provision of stand space in the hall for single storey stand constructions, including elements of stand design bearing "made in Germany" designated for stand areas in the hall, supplied by the implementation company. The elements of stand design must be affixed in a clearly visible position.

An exhibitor's own stand construction is subject to the construction guidelines of the trade fair organiser and the Federal Government and must be approved. The exhibitor is obliged to submit his stand construction concept for inspection to the implementation company immediately after the closing date for registrations has passed.

Electricity: Supply voltage: 220V, one socket (max. capacity 2 kW; without distribution/switching panel)

Please note: Costs for additional electricity supply to the stand (for both light and power current) from the nearest distribution point will be charged to the exhibitor and will be invoiced based on the kW registered by the exhibitor. Additional light and power current usage must be paid by the exhibitor.
